## ANTICOSTI'S treasures

**P**ourvoirie du Lac Geneviève extends from the northern to the southern side of the island across breathtaking scenery and amidst plentiful wildlife. Don't miss Grotte des Trois-Plaines, a spectacular cave that's truly a geological phenomenon. As you look east from Cap Caron, you'll get a feel for the immensity of the island as a string of cliffs stretches out as far as the eye can see. You may even spot some black guillemots nesting along the cape. The mouth of Rivière Bec-Scie is perhaps one of the finest places on the island to observe the majestic bald eagle. And from the lookout at Pointe Kakawis, you can spy part of the Mingan Archipelago on a clear day. Be sure to keep your eyes open for the remains of an old fire tower as you walk along the trail to the lookout.

Vestiges of the Menier era can also be seen west of the Pourvoirie. Baie Ste-Claire, the island's first major settlement, was founded by Henri Menier at the turn of the 20<sup>th</sup> century. The ruins of two homes can still be seen on the site of the former village, along with a number of other signs of human occupation. This is the perfect place for admiring sunsets over the sea and watching the many deer that come to feed in the abandoned fields. At Pointe-Ouest, a trawler that ran aground in 1982 provides a vivid reminder of how Anticosti earned its nickname of Shipwreck Island at the turn of the century. To the east, other attractions such as Chute Vauréal (falls) and its canyon, Rivière Observation, the Wilcox shipwreck, and many others are well worth a visit!

### A FEW TIPS

For those traveling by air or boat, given the allowable weight limit, we recommend you stock up on food in Port-Menier.

We suggest you pack sleeping bags, wind-and raingear, hiking boots, shoes you can wear in the water, binoculars, camera, first aid kit, personal medication, etc...

If you have opted to rent a cabin, we strongly recommend you rent a vehicle before you arrive that is suitable for travel on the island's roads. We will be happy to inform you of the various options available.

Certain areas of the island are remote and we advise you to be careful at all times. Because of the very flammable nature of the vegetation, fire must be handled with extreme caution.

Pourvoirie du Lac Geneviève prohibits the use of all-terrain vehicles on its property.

Dogs are prohibited on Anticosti Island by municipal by-law.

### CANCELLATION

Payments are non-refundable. We urge you to acquire trip cancellation insurance if you are not already covered. However, substitute guests are accepted at all times.

### LIABILITY

The outfitter assumes no liability in the event of accidents or delays caused by weather or other conditions beyond their control.

### PAYMENT METHODS

Payment methods may vary depending on the kind of stay you choose. We will be glad to inform you which one applies to your choice.
